

relief line
emergency relief suppliers

helping you
help communities
around the world...

Ajay Industrial Corporation Limited has set up Reliefline, a division dedicated to the disaster management, humanitarian relief aid and emergency relief supplies. Over the past decade, the number of natural and manmade disasters has climbed inexorably. Hazards are always prevalent, but the hazard becomes a disaster only when there is greater vulnerability and less of capacity to cope with it. Reliefline helps in developing capacities so as to reduce vulnerability. Capacity can be defined as “resources, means and strengths which exist in households and communities and which enable them to cope with, withstand, prepare for, prevent, mitigate or quickly recover from a disaster”.

Reliefline volunteers itself to meet the requirements of those who become the victims due to sudden onset of various kinds of disaster. Every day, Reliefline is touching the lives of those impacted by tsunamis, tornadoes, earthquakes, floods as well as manmade disasters. We have created a comprehensive product line of emergency relief supplies to help you help communities around the world. Reliefline's mission is to cater to the public in need before, during and after disasters, with its diverse range of product line. In the act of providing various products, we are committed to Safety, Lawfulness, Professionalism, Responsibility, Good Fellowship, Loyalty and Integrity which gets reflected in our products.

It is not possible to show all the items in the catalogue. For any further information and queries please contact us.
